Graduate scholarship programme

Make a difference

To strengthen our connections with local universities, we're proud to present our graduate scholarship programme.

At each participating university, a graduate or post-graduate student will benefit from financial support to pursue their studies or carry out research projects.

Amount awarded

\$18,000 per university

Participating universities

- École de technologie supérieure (ÉTS)
- Laval University
- McGill University
- University of Montreal – École Polytechnique
- University of Quebec in Chicoutimi
- University of Sherbrooke
- University of British Columbia

Documents required

Qualifying students must submit a file containing:

- Name of institution where your graduate studies will be pursued
- Proof of enrollment or acceptance
- Name of research director
- Description of your research project including timelines (maximum four pages, double-spaced)
- Official transcripts with results for the entirety of your university studies
- Two letters of reference from professors or researchers
- Curriculum vitae.

Conditions

Scholarship applications must be received at the graduate or post-graduate scholarships service at your university no later than 17 May 2019.

Each university will provide us with a short-list of applicants.

Eligibility requirements

Students must be enrolled or accepted in a full-time study programme for a graduate or post-graduate degree.

Preferred areas of study include:

- Aluminium metallurgy
- Electrolysis
- Hydrometallurgy
- Environment
- Analytical technologies
- Modelling and control systems
- Data Science

New

Terms

- Scholarships are offered to students enrolled in 1st year Master studies or 1st and 2nd year Doctorate studies
- Scholarships are non-renewable and past recipients are not eligible
- Scholarships will only be awarded to those who meet eligibility requirements

For more information please contact the graduate or post-graduate scholarships service of your university or your faculty's secretary.
