CGSM Application Checklist – 2017-2018 Competition

Order of Application Materials (pulled from Research Portal by graduate program)

1. Application Form
   - Outline of Proposed Research (max. 1 page)
   - Citations/Bibliography (max. 1 page)
   - Up-to-date official transcript of all undergraduate and graduate studies
   - Two (2) completed reference letters

2. Canadian Common CV

Selection Criteria

50% Academic Excellence
- As demonstrated by past academic results, transcripts, awards and distinctions.

30% Research Potential
- As demonstrated by the applicant’s research history, his/her interest in discovery, the proposed research, its potential contribution to the advancement of knowledge in the field, and any anticipated outcomes.

20% Personal Characteristics and Interpersonal Skills
- As demonstrated by the applicant’s past professional and relevant extracurricular interactions and collaborations.

Eligibility

For eligibility criteria, please see: http://www.nserc-crsng.gc.ca/Students-Etudiants/PG-CS/CGSM-BESCM_eng.asp#eligibility

To be eligible to apply, applicant must:

- be a Canadian citizen or a permanent resident of Canada as of the 1 December 2016 application deadline
- be enrolled in, or intend to apply for full-time admission to an eligible graduate program (see below) at the master’s or doctoral level at UBC
- have completed, as of 31 December 2016, between zero and 12 months of full-time studies (or full-time equivalent) in:
  - the master’s program for which applicant is requesting funding; or
  - the doctoral program for which applicant is requesting funding if applicant was admitted into a doctoral program directly from their bachelor’s program (applicant was never registered in a master’s program, or applicant is registered in a combined Master’s-PhD program); or
  - a master’s program, but applicant is requesting funding for a doctoral program (an example is a student who is fast-tracking from a master’s to a doctoral program within 12 months of starting their Master’s and is seeking funding for the first 12 months of their doctoral program); and
- not have previously held a CGSM (Note that for CIHR and NSERC, scholarship support for graduate studies (master’s and doctoral) is limited to a lifetime maximum of four years (48 months) of full-time equivalency. If applicant has received the maximum support toward their graduate-level studies by any of the three federal granting agencies, they may not be eligible to apply for a CGSM.)
- submit a maximum of one CGSM application per academic year to either CIHR, NSERC or SSHRC

Program of Study Eligibility

An eligible graduate program must have a significant research component. A significant research component is considered to be original, autonomous research that leads to the completion of a thesis, major research project, dissertation, scholarly publication, performance, recital and/or exhibit that is merit/expert reviewed at the institutional level as a requirement for completion of the program. Master’s programs that are based only on course work are not
eligible since they do not include a significant research component. Any exceptions to this policy must be reviewed and approved by the Faculty of Graduate and Postdoctoral Studies, in consultation with the Tri-Agencies.

**First-class Academic Standing**

It is expected that applicants will have achieved a first-class average, as determined by UBC, in each of the last two completed years of study (full-time equivalent). We may, in exceptional circumstances, offer CGSM funding to applicants who do not meet this eligibility requirement. Graduate programs nominating applications that do not meet the first-class requirement must provide a rationale for nomination. Please note that rationales should be very compelling, as the CGSM competition is quite competitive and Academic Excellence accounts for 50% of application evaluation at the master’s level.

**Completeness**

An application will be considered incomplete, and therefore will not be accepted for the CGSM competition, for the following reasons:

- Transcripts
  - If the first-class average **cannot be calculated** without the missing transcript(s), the transcript portion of the application is considered **incomplete**.
  - If the first-class average **can be calculated** without the missing transcript(s), the transcript portion of the application is considered **complete**.

- Outline of Proposed Research
  - Unacceptable
    - If the application is missing an Outline of Proposed Research
  - Acceptable, but subject to correction
    - If the Outline of Proposed Research exceeds one page by extending onto the Citations attachment, any material on the second page will be blacked out and will not be available to adjudicators.
    - If the Outline of Proposed Research does not adhere to the Presentation Standards outlined in the application instructions (font and margin size, etc.), the content of the proposal will be reformatted according to the correct standards, and any content that does not fit within the space allowed will not be included in the file that is reviewed by adjudicators.
• Citations
  o Applicants are not required to provide citations
  o Acceptable, but subject to correction
    ▪ If the Citations page does not adhere to the Presentation Standards outlined in the application instructions (font and margin size, etc.), the content of the Citations page will be re-formatted according to the correct standards and any content that does not fit within the space allowed will not be included in the file that is reviewed by adjudicators.

Is the applicant in the right research area?

Applications may now be moved between agencies as appropriate, rather than being declared ineligible. Graduate programs are to ensure that the proposed research fits within the field of research chosen by the applicant (health sciences, natural sciences and engineering, or social sciences and humanities); if it does not, please indicate the appropriate agency in the Nomination Data Sheet and be certain to consider the application with the other applications in the appropriate agency. In addition, please notify G+PS of this change, as it will also require updating in the Research Portal.

APPLICATION FORM

| Number of months completed at time of taking up of award | • Check months of all prior studies up to 31 December 2016; applicants should have completed, between zero and 12 months of full-time studies (or full-time equivalent; 2 months part-time is equivalent to 1 month full-time) in:
  o the master’s program for which they are requesting funding; or
  o the doctoral program for which they are requesting funding if they were admitted into a doctoral program directly from their bachelor’s program (they were never registered in a master’s program, or they are registered in a combined Master’s-PhD program); or
  o a master’s program, but they are requesting funding for a doctoral program (an example is a student who is fast-tracking from a master’s to a doctoral program within 12 months of starting their Master’s and is seeking funding for the first 12 months of their doctoral program)
  • If total months of full-time study is greater than 12 in the degree program for which they are requesting funding, applicant is not eligible for CGSM |

FREE-FORM – PRESENTATION STANDARDS
