

UBC Graduate and Postdoctoral Studies

Finding course conflicts in your saved schedule

About course conflicts

A course conflict happens when two or more classes in your schedule take place at the same time. You must resolve the issue before you register for courses, otherwise you will not be able to enroll in the course at all. Learn how to resolve a course conflict.

How to find course conflicts in a saved schedule

First, find your saved schedules

Follow the instructions to view your saved schedules in the Academics app.

Next, display the calendar view

1. Select the schedule you want to review for course conflicts.
2. Once the schedule is open, click the "Calendar View" button at the bottom left of the saved schedule table.
