

[Example for doctoral committees with one supervisor – remove material in square brackets [] before adding the page to your thesis.]

The following individuals certify that they have read, and recommend to the Faculty of Graduate and Postdoctoral Studies for acceptance, the dissertation entitled:

Materials from mines: an analysis of uses in manufacturing

submitted by Joe Fish in partial fulfillment of the requirements for

the degree of Doctor of Philosophy

in Materials Engineering

Examining Committee:

John Smith, Materials Engineering, UBC

Supervisor

Mary Maker, Materials Engineering, UBC

Supervisory Committee Member

Magnus Monolith, Materials Engineering, UBC

University Examiner

George Digger, Mining Engineering, UBC

University Examiner

Additional Supervisory Committee Members:

Iva Crater, Materials Engineering, UBC

Supervisory Committee Member

Adeline Long, CEO of Aerial Machine Transportation, Inc.

Supervisory Committee Member

[Example for doctoral committees with two co-supervisors – remove material in square brackets [] before adding the page to your thesis.]

The following individuals certify that they have read, and recommend to the Faculty of Graduate and Postdoctoral Studies for acceptance, the dissertation entitled:

Identifying committee members in a UBC thesis

submitted by Joe Fish in partial fulfillment of the requirements for

the degree of Doctor of Philosophy

in Materials Engineering

Examining Committee:

John Smith, Materials Engineering, UBC

Co-supervisor

Mary Maker, Materials Engineering, UBC

Co-supervisor

Magnus Monolith, Materials Engineering, UBC

University Examiner

George Digger, Mining Engineering, UBC

University Examiner

Additional Supervisory Committee Members:

Iva Crater, Materials Engineering, UBC

Supervisory Committee Member

Adeline Long, CEO of Aerial Machine Transportation, Inc.

Supervisory Committee Member
