DESIGNING TO SUCCEED IN GRADUATE SCHOOL AND BEYOND

Graduate students today have a plethora of academic and professional opportunities they may engage in during their graduate journey. There are also many ways to define success both within and after graduate school.

- How do you choose which opportunities to take advantage of?
- Are you setting yourself up to succeed in your intended career path after graduate school?
- Do you even know that path?

This interactive workshop will not only help you develop or enhance your academic plan for completing your graduate degree, but will also help you explore possibilities and design your career path.

This session is part of Thrive, a month long celebration, with events and initiatives focused on building mental health through the Thrive 5. Check out other Thrive events at thrive.ubc.ca
