

UBC FACULTY OF MEDICINE

MEDICINE FACTS

Every day across British Columbia, trainees and researchers at the UBC Faculty of Medicine are turning skills into jobs, investments into discoveries, and discoveries into solutions that are transforming health for everyone.

The UBC Faculty of Medicine offers a diverse array of training opportunities including cutting-edge research experiences in the biosciences, globally recognized population health education, quality health professional training, as well as several certificate and online training options. Faculty of Medicine is home to more than 1,700 graduate students housed in 28 graduate programs (14 of which offer doctoral research options). Year after year, research excellence in the Faculty of Medicine is supported by investment from funding sources here at home and around the globe, receiving approximately \$1.3 billion in total research funding in the last four years.

Transforming Health for Everyone.

We value our trainees and the creative input they have to scholarly activities at UBC. Our priority is to enable their maximum potential through flexible opportunities that provide a breadth of experiences tailored to their own individual career objectives.

ADMISSIONS

Graduate programs in the Faculty of Medicine are administered by the University of British Columbia Faculty of Graduate and Postdoctoral Studies. While UBC has general admissions requirements that must be met, each individual graduate program may have additional requirements. For example, the English language proficiency requirement is higher in most Faculty of Medicine programs than the minimum university requirement. For more details, please visit the websites of the individual programs.

FINANCIAL SUPPORT

Financial support for graduate students typically comes from one or more of four basic sources: merit-based awards administered by Graduate and Postdoctoral Studies; teaching and/or research assistantships; need based awards; and direct awards from external agencies. Specific graduate student awards are available to research trainees registered in Medicine or supervised by a faculty member with a primary appointment in the Faculty of Medicine.

CENTRES & INSTITUTES

Most Faculty research is conducted under the auspices of six institutes and 17 centres that are part of UBC or affiliated with it, in collaboration with our health partners. A full list, including site links, is available at:

www.med.ubc.ca/research/centres-institutes.

GRADUATE PROGRAMS

Our province-wide programs provide opportunities for training in subjects ranging from the diversity of basic biomedical sciences, to clinical and health services research. Additional information about each of the programs listed below is available at:

grad-postdoc.med.ubc.ca/prospective-students/degree-programs.

BIOMEDICAL RESEARCH

- Audiology & Speech Sciences (PhD)
- Biochemistry & Molecular Biology (MSc, PhD)
- Biomedical Engineering (Meng, MAsc, PhD)
- Cell & Developmental Biology (MSc, PhD)
- Experimental Medicine (MSc, PhD)
- Interdisciplinary Oncology (MSc, PhD)
- MD/PhD Program
- Medical Genetics (MSc, PhD)
- Neuroscience (MSc, PhD)
- Pathology & Laboratory Medicine (MSc, PhD)
- Pharmacology (MSc, PhD)
- Physical Therapy (MPTPhD)
- Rehabilitation Sciences (MSc, PhD)

- Rehabilitation Sciences Online (MRSc)
- Reproductive & Developmental Sciences (MSc, PhD)
- Surgery (MSc)

POPULATION & PUBLIC HEALTH

- Health Administration (MHA)
- Health Sciences (MHSc)
- Occupational and Environmental Hygiene (MSc)
- Population and Public Health (MSc, PhD)
- Public Health (MPH, MPHMSN, MPHDPH)

HEALTH PROFESSIONAL

- Audiology & Speech Sciences (MSc)
- Genetic Counselling (MSc)
- Global Surgical Care (MGSc)
- Occupational Therapy (MOT)
- Physical Therapy (MPT)

THE UNIVERSITY OF BRITISH COLUMBIA

UBC is one of the world's great public universities, encouraging bold thinking, curiosity and initiative, so our students can realize their greatest potential. We hold a reputation for excellence in advanced research and learning, supported by world-class faculty, students and research facilities across all major academic disciplines.

GRAD SCHOOL AT UBC

UBC offers over 300 master's and doctoral programs in nearly every academic field imaginable.
