# **Transforming Health for Everyone**

Ranked among the world's top medical schools, the UBC Faculty of Medicine is a leader in both the science and the practice of medicine. Across British Columbia, we're training the next generation of biomedical innovators, doctors and health care professionals who are making remarkable discoveries and helping to create the pathways to better health for our communities at home and around the world.

Our trainees play a critical role in the creation of new knowledge that is changing how we think about health from the molecular to societal level. Our priority is to enable their maximum potential through flexible opportunities that provide a breadth of experiences tailored to their own individual career objectives.

# **ADMISSIONS**

Graduate programs in the Faculty of Medicine are administered by UBC's Faculty of Graduate and Postdoctoral Studies. While UBC has general admissions requirements that must be met, each individual graduate program may have additional requirements. For example, the English language proficiency requirement is higher in most Faculty of Medicine programs than the minimum university requirement. For more details, please visit the websites of the individual programs.

Financial support for graduate students typically comes from one or more of four basic sources: merit-based awards administered by Graduate and Postdoctoral Studies; teaching and/or research assistantships; need based awards: and direct awards from external agencies. Specific graduate student awards are available to research trainees registered in Medicine or supervised by a faculty member with a primary appointment in the Faculty of Medicine.

# **FINANCIAL SUPPORT**

## **CENTRES & INSTITUTES**

Most Faculty of Medicine research is conducted under the auspices of our world-class centres and institutes that are part of UBC or affiliated with it, in collaboration with our health partners. A full list, including site links, is available at: med.ubc.ca/research/centresinstitutes.

# **GRADUATE PROGRAMS**

Our province-wide programs provide opportunities for training in subjects ranging from the diversity of basic biomedical sciences, to translational, clinical and health services research. Additional information about each of the programs listed below is available

grad-postdoc.med.ubc.ca/guidelines-andgovernance/fom-graduate-program-landscape

#### **BIOMEDICAL RESEARCH**

- Audiology & Speech Sciences (PhD)
- Biochemistry & Molecular Biology (MSc, PhD)
- Biomedical Engineering (MASc, PhD)
- Cell & Developmental Biology (MSc, PhD)
- Experimental Medicine (MSc, PhD)
- Interdisciplinary Oncology (MSc, PhD)
- Combined MD/PhD
- Global Surgical Care (MGSC)
- Medical Genetics (MSc, PhD)
- Neuroscience (MSc, PhD)
- Pathology & Laboratory Medicine (MSc, PhD)
- Pharmacology and Therapeutics (MSc, PhD)
- Rehabilitation Sciences (MSc. PhD, MRSc, MPT/PhD Dual Degree)
- Surgery (<u>MSc</u>)
- Women+ and Children's Health Sciences (MSc, PhD)

### **POPULATION & PUBLIC HEALTH**

- Health Administration (MHA)
- Health Sciences (MHSc)
- Occupational and Environmental Hygiene (MSc)
- Population and Public Health (MSc, PhD)
- Public Health (MPH)

# **HEALTH PROFESSIONAL** (Accreditation-based)

- Audiology & Speech Sciences: Audiology (MSc)
- Audiology& Speech Sciences: Speech Language Pathology (MSc)
- Genetic Counselling (MSc)
- Occupational Therapy (<u>MOT</u>)
- Physical Therapy (MPT)

#### OTHER GRADUATE-LEVEL PROGRAMS

- Graduate Certificate in Global Surgical Care (GCGSC)
- Graduate Certificate in Orthopaedic Musculoskeletal Physical Therapy (GCOMPT)
- Graduate Certificate in Rehabilitation Sciences (GCRS)

THE UNIVERSITY OF BRITISH COLUMBIA
